

The Belgian Competition Authority confirms the inspections at retail chains

The Investigation and Prosecution Service of the Belgian Competition Authority (BCA) confirms that the BCA is conducting inspections at the premises of some companies active in the retail sector. These companies are suspected of having implemented anticompetitive practices related to a purchase partnership concerning consumer goods. These practices could constitute possible infringements of Article IV.1 of the Code of Economic Law and/or Article 101 TFEU.

This inspection is a preliminary step in the investigation of restrictive practices. Conducting inspections does not prejudice the outcome of the investigation itself. The BCA respects the rights of defence, in particular the right of companies to be heard in the course of the proceedings. The duration of the investigation will depend on several factors, including the degree of complexity of the case, the cooperation of the undertakings concerned with the BCA and the exercise of the rights of defence.
