

**The Belgian Competition Authority approves the acquisition of joint control over *Remant Africa Logistics* by *Africa Global Logistics* and *Remant***

On 27 March 2026, the Belgian Competition Authority ("BCA") approved the acquisition of joint control over Remant Africa Logistics by Africa Global Logistics, alongside Remant.

The concentration was notified on 23 March 2026 and the application of the simplified procedure was requested.

*Africa Global Logistics* is a French company specialised in logistics services and multimodal transport. It also provides maritime agency services and operates port concessions as well as railway infrastructure, mainly on the African continent.

*Remant* is a Belgian freight forwarder specialised in innovative logistics solutions for transport to and from the Benelux. It is active through several specialised companies, each responding to different logistics needs.

*Remant Africa Logistics* is a Belgian company within the Remant NV group active in the provision of freight forwarding services between the Benelux and the African continent. Its expertise covers, among others, the brewery, automotive, food logistics, pharmaceutical, chemical and mining equipment sectors.

The parties' activities overlap on freight forwarding activities and involve vertical links between freight forwarding and maritime transport.

In its decision of 27 March 2026 the BCA finds that the conditions for the application of the simplified procedure were met and that the notified concentration does not raise objections.

The Belgian Competition Authority (BCA) is an independent administrative authority that contributes to the definition and implementation of competition policy in Belgium. Concretely, the BCA pursues anti-competitive practices, such as cartels and abuses of a dominant position, and reviews the main merger operations. The BCA cooperates with the other competition authorities of the member states of the European Union and the European Commission within the European Competition Network (ECN)
