

**The Belgian Competition Authority approves the acquisition of sole control over Nobelwind and Northwester 2 by Parkwind**

On 21 April 2026, the Belgian Competition Authority (BCA) approved the acquisition of the sole control of Nobelwind and Northwester 2 by Parkwind.

The concentration was notified on 15 April 2026 and the application of the simplified procedure was requested.

Parkwind is a public limited company incorporated under Belgian law in 2012. It is primarily active in the development, financing, construction, and operation of offshore wind farms.

Northwester 2 is a public limited company incorporated under Belgian law in 2017 and has been operational since 2020. Nobelwind is a public limited company incorporated under Belgian law in 2013 and has been operational since 2017. Both companies operate offshore wind farms in the Belgian Exclusive Economic Zone. They are active in the production and sale of electricity.

In its decision of 21 April 2026, the BCA found that the conditions for applying the simplified procedure were met, partly because of the limited market position of the parties and the limited overlap of their activities. The notified concentration does not give rise to any objections.

The Belgian Competition Authority (BCA) is an independent administrative authority that contributes to the definition and implementation of competition policy in Belgium. Concretely, the BCA pursues anti-competitive practices, such as cartels and abuses of a dominant position, and reviews the main merger operations. The BCA cooperates with the other competition authorities of the member states of the European Union and the European Commission within the European Competition Network (ECN)
